NUMBER 4.

OUR PRESENT NAVY

What It Is and What It Should Be Made.

SECRETARY HERBERT'S REPORT.

He Asks For Three Great Battle Ships and Twelve Torpedo Boats—Our Naval Strength Compared With Other Great Powers—A Lesson Taught by the Korean War.

WASHINGTON, Nov. 28.—The most important recommendation made by Secretary Herbert in his annual report is that congress authorize the construction of three great battleships of about 10,000 tons displacement each, to cost, exclusive of armament, not exceeding 1,000,000 each, and 12 torpedo boats, of from 100 to 300 tons each, at the discretion of the secretary, to cost not exceeding an average of \$170,000.

Since his last report five splendid ships have been added to the naval list, three of which are capable of speed in excess of 21 knots, while two of them are the fleetest cruisers in the world. The five vessels are the Marblehead, 18.44 knots; Columbia, 22.80; Olympia, 21.69; Montgomery, 19.54, and Minneapolis, 23.76.

One important change of naval policy is noted in connection with the advertisements for three new torpedo boats soon to be issued. The secretary says that no speed premiums will be allowed on these boats; that the premium system undoubtedly had its advantages when adopted, but the department is now convinced that the time has come when, with the experience gained, it may with profit be abandoned.

The report shows the number of torpedo boats now on hand in foreign countries is 1,233, and the number building 182. Great Britain has 175 on hand and 64 building, while France is even better with 214 on hand and 41 building. Of 17 countries enumerated not one has less than 22 of these boats, while the United States with more coasts and ports than any nation has but six, counting those yet to be built.

The secretary speaks in terms of deep regret of the loss of the Kearsarge, and to prevent the famous name from lapsing on the naval list he suggests that a battleship be built to perpetuate it. He also suggests that the renowned old Constitution be put in repair and placed on exhibition at the Washington navyyard as an object of interest to patriotic Americans.

The secretary has taken a cue from the battle of the Yalu and says that he has given instructions that all but the most necessary woodwork must be removed from our ships. Attention is called to the fact that although the government is annually expending a large subsidy for vessels, such as the Paris and New York, to secure their use in time of war, it has not a gun to put on them. At present, in case of war, Great Britain could speedily arm her merchant marine on the great lakes and do so enormous damage, while if we had a reserve supply of guns we could dominate these waters.

On this point—of preparation for war in time of peace—the secretary makes this very significant comment:

"The latest and one of the most impressive lessons in all history is now being taught by China and Japan. A nation, the most populous in the world, able to put millions of fighting men into the field, is now, after suffering many disasters, scouring Europe and America for munitions of war. It relied upon its numbers. Now it is buying discarded guns and discarded ammunition, whatever it can get, to aid it in repelling the assaults of a people vastly inferior to it in numbers."

The secretary caused experiments to be made at Newport to determine the probable effect upon the crew of a submarine boat of the explosion of torpedo charges. Live animals were enclosed in an old lay torpedo case which was submerged in 15 feet of water, and charges of 80 pounds of gun cotton were exploded at various distances from 431 feet to 80 feet. No damage was done to the inmates, and it has been demonstrated that the crew of a submarine boat will be safe so long as the hull is not ruptured. But it was made apparent by the denting of the torpedo case at 80 feet distance that the damage to a submarine boat from the detonation of high explosives must be taken into consideration.

Notice of Secretary Herbert's intention to create a new naval station—the South Pacific—is found in a paragraph announcing his purpose, now that nearly all of our cruisers are ready for service, to put into operation a policy that will keep a number of cruising vessels sufficient for the ordinary needs of naval policing and the protection of our interests abroad on each of six stations—North Atlantic, South Atlantic, North Pacific, South Pacific, Asiatic and European.

The report states that instructions have been sent to the admiral commanding in Asiatic waters which, it is believed, will secure the utmost possible protection to American interests and the collection of valuable information relative to the naval battles fought there.

After again calling attention to the urgent need of legislation for the relief of the personnel of the navy, the secretary recommends that the enlisted force be increased by 2,000 men.

In conclusion the secretary submits estimates for the next year aggregating \$27,885,914, exceeding the current appropriations by \$5,495,193, caused mainly by the necessity of paying for vessels now under contract. It is stated that after this year the appropriations on this score will rapidly diminish—falling from \$13,259,393 next year to \$750,000.

JUDGE RICKS' INVESTIGATION.

The Committee Hear Three Witnesses and Close the Case.

CLEVELAND, Nov. 28.—The hearing of the charges against Judge Ricks closed yesterday for the present. Congressman Lane arrived, and for the first time sat with the committee. An agreement was reached as to the records to be used as evidence, and then Miss Lillis, the stenographer under Judge Ricks' successor as clerk, and Charles Beatty, who was a deputy clerk at the same time, were examined concerning the compensation of Miss Lillis in the Birdsall case. Miss Lillis said she received \$153 and signed a voucher for \$300.

Judge Ricks was called to the stand and questioned by Chairman Bailey as to the practice in charging fees and estimating the clerk's compensation. Mr. Bailey remarking at the close that the law had not been closely followed in the matter.

Judge Stevenson Burk, one of Judge Ricks' counsel, requested 30 days' time in which to prepare explanatory papers in regard to new statements made by Attorney Green. The committee allowed 15 days.

This closed the hearing in Cleveland. Chairman Bailey said that at the end of the 15 days a meeting of the house judiciary committee would probably be called to consider the case and that he would present the matter in the house before the holidays.

IRON GALL.

Some People Might Speak Thus Disrespectfully.

INDIANAPOLIS, Nov. 28.—Ex-Judge Daniel W. Howe, attorney for the defendants in the Iron Hall case, filed a petition with Judge McMasters in the superior court Tuesday asking that the allowances made by Judge Winters (McMasters' predecessor) to Hawkins & Smith, attorneys, and Receiver Failey, be reconsidered. The petition alleges that the first allowance to Hawkins & Smith of \$16,000 was ample without the second allowance \$14,000; that deduction should be made from Failey's allowance on account of interest received on funds by the Merchants' National bank, of which he and his bondsmen are principal owners. The case will be heard Friday morning. The sums allowed to the receiver and the above named attorneys for services in the receivership were respectively \$50,000 and \$30,000.

OUTRAGE IN KENTUCKY.

A Mob After the Villain and a Lynching Sure to Follow.

MORGANFIELD, Ky., Nov. 28.—News of a horrible outrage and murder has just reached this city. Last Saturday afternoon about 3 o'clock John M. Allen went to the home of Mrs. Mary Hicks, about seven miles from Providence, in Webster county, and, finding her alone, criminally assaulted her in a brutal manner. He then beat her on the head with a heavy vessel. Not satisfied the scoundrel took his pocket-knife and shockingly cut Mrs. Hicks in the abdomen, after which he left.

A posse of 100 men on horses are hot on the trail of Allen, who has been in hiding since Saturday, with good prospects of catching him. When captured he will undoubtedly be lynched or probably meet death in a more horrible manner.

BARELY POSSIBLE.

William Pugh Claims to Have Captured a Real Live Bear.

LIMA, O., Nov. 28.—At sunrise William Pugh was startled out of his senses, when going to his stable to feed, to find a medium-sized black bear emerging from the edge of his old stone quarry, just north of the barn.

Pugh owns a handsome Newfoundland dog that resembles a young bear, and his first impression was that the animal sighted was his dog, but on closer scrutiny found it was a real live bear and that he had fallen into the quarry, a distance of 39 feet, and was partially paralyzed by the fall. Pugh, with his hired man, corralled bruin and chained him in a stall. He thinks the bear got away from Farmer Schull, who got him when Adam Forepaugh's show disbanded at Bluffton.

Firemen Will Go to Cleveland.

CLEVELAND, Nov. 28.—A committee composed of members of the executive board of the Brotherhood of Locomotive Firemen were here yesterday investigating the advantages offered for locating the headquarters of the organization in this city. Grand Secretary Arnold, who is a member of the committee, said that the inducements held out by Cleveland were better than those of any other city.

Drowned in the Canal.

TOLEDO, Nov. 28.—Lucius Brown, superintendent of the Toledo house of correction, was drowned yesterday evening in the canal, a short distance from the institution. Brown had occasion to pass the canal on his way home, and the night being very dark, it is presumed he lost his way and walked into the canal. He was about 50 years of age and married.

Lake Vessel in Distress.

CHEBOYGAN, Mich., Nov. 28.—A large steam barge and tow have gone on the banks one mile off Pelton and Reid's mill at this place. A heavy sea is running, and the vessel is pounding badly. She is whistling for help, but the sea is so heavy the harbor tugs dare not go out.

KANSAS CITY, Nov. 28.—A fire started about 1 o'clock this morning in the immense packinghouse of Fowler Brothers and completely destroyed the lardhouse and tinning department. The loss will aggregate \$100,000.

PLOT AGAINST HAWAII

The Recent One Completely Frustrated.

NO FURTHER TROUBLE FEARED.

The Two Leading Plotters Have Fled the Country—Queen Victoria Officially Recognizes the Hawaiian Republic—The United States Steamship Yorktown Now at Honolulu.

SAN FRANCISCO, Nov. 28.—The steamer Oceanic arrived yesterday from Yokohama, via Honolulu. The Oceanic brings no later Asiatic news than was received on the Empress of China, which arrived at Victoria, Nov. 20.

At Honolulu there was still considerable excitement over the recent revolutionary plot. The leaders of the royalist faction were still declaring trouble was sure to occur soon after the sailing of the Oceanic. Government officials, however, declare no trouble need be feared. The conspiracy, they said, though it did not at any time threaten serious trouble for the government, had been completely frustrated.

As exposed in the Honolulu newspapers, the proposed uprising was planned by a man named Katzer, formerly an officer in the Austrian army and later a sergeant in the Fifth United States infantry. His plan was to secretly arm several hundred royalist sympathizers and by concerted action to capture the government executive building and the three or four small steamers plying among the islands, then to establish a temporary government at Hilo.

One of the steamers was to be quickly dispatched to Victoria, B. C., for arms, ammunition and men who were to have been previously enlisted by an agent now in the United States. Several thousand dollars had been pledged by wealthy royalists who were implicated. This plot was exposed to the government, however, long before any actual revolutionary preparations could be made.

Katzer fled to San Francisco, and Wetmore, a newspaper man, who had been admitted to the revolutionary circle and who exposed the plot to the government, was a passenger on the same steamer. Ostensibly he was banished, but it is believed in Honolulu the government officials sent him away as a rule to protect him from the wrath of the royalists.

On Nov. 15 British Commissioner Hayes formally presented to President Dole an autograph letter from Queen Victoria recognizing the Hawaiian republic.

The United States steamship gunboat Yorktown arrived at Honolulu shortly before the Oceanic sailed.

AN ATTORNEY SHOT.

The Murderer Claims He Has Been Robbed by His Victim.

CHICAGO, Nov. 28.—Edward P. Hilliard, an attorney in the Rookery building, was shot and almost instantly killed yesterday afternoon by Henry C. Hastings, a milk dealer. The shooting occurred in the office of the Love Electric Traction company of which Hilliard was a director.

The trouble leading up to the crime is of long standing, Hastings claiming that by sharp practices, Hilliard has, during the last five years taken from him about \$5,000 worth of property. Yesterday Hilliard foreclosed on a horse and buggy owned by Hastings, and the latter shot the attorney while exasperated over the transaction. Hastings made no attempt to escape, and surrendered to the police. He said, after being locked up: "That man had taken away all my property, so I thought I'd let my body and soul go with it. If it had not been for my wife and child I'd shot him long ago."

Hilliard was in prosperous circumstances, and leaves a widow and one child.

Pattern Shops Burned.

CHICAGO, Nov. 28.—The pattern shops of the Pullman Palace Car company, situated at One Hundred and Fourth street and Erie street, were destroyed by fire last night, entailing a loss of \$25,000, of which \$17,000 was on the patterns and \$8,000 on the building. Some of the minor officials of the company are inclined to consider the fire as incendiary, although they have found no tangible evidence to support the theory. Twice last week cars standing near the shop were discovered to be on fire without apparent cause, and the Pullman people are inclined to believe that all the fires were incendiary.

Foul in a Prize Fight.

BUFFALO, N. Y., Nov. 28.—Last night Solly Smith of California and Oscar Gardner, the Omaha Kid, met in the rooms of the old Buffalo club, in a 15-round go. The men were evenly matched and it is hard to tell what the final outcome of the match would have been had not Smith lost his head in the fifth round and punched Gardner before he had regained his feet after a knock-down.

To Keep Police Out of Politics.

AURORA, Ill., Nov. 28.—Chiefs of police of the leading cities of the state assembled here Tuesday to consider a bill to be laid before the legislature to separate the police from politics. The plan is to provide for police boards and the effects desired are the rescue of the police from political contamination and at the same time a higher standard of manhood and discipline.

Queer Quarters.

MAYSVILLE, Ky., Nov. 28.—This city is flooded with counterfeit silver quarters that have the appearance of being recently coined.

PRINCESS BISMARCK'S DEATH.

All Germany Sympathizes With the Great Statesman in His Loss.

BERLIN, Nov. 28.—The news of the death of the Princess Bismarck, who died yesterday morning at 5 o'clock, made a deep impression in all the government departments here. Dr. Von Boetticher, secretary of the imperial home office, immediately imparted the news to all leading officials. The papers of all political parties eulogize the deceased as having been a true type of the German hausfrau, who only lived for her husband and children and who in no way meddled in politics.

Princess Bismarck had for years been a sufferer with a bronchial trouble and gastric catarrh. Eighteen months ago she was found lying in a pool of blood at the foot of her bed. These fainting attacks were repeated from time to time. The immediate cause of her death was dropsy, complicated with heart disease. The disease rapidly became worse during the last few days. The princess was cheerful to the end. She tried to deceive her husband as to her real condition. She spent much of her time out of bed.

Drs. Schweninger and Chrysander regarded her case as hopeless a month ago, but concealed the truth from Prince Bismarck. When recently the wife of the prince's valet fell seriously ill, Prince Bismarck said to him: "Dear friend, I sincerely sympathize with you in your grief, for, alas, I am in the same terrible position as yourself. Every one is departing from us."

Dr. Schweninger has been here since Friday but he was unable to do anything beyond attending to the comfort of the dying princess.

The prince is quite overcome by the death of his wife. He had watched by her bedside until 1 o'clock yesterday morning. Shortly before 6 o'clock Dr. Schweninger gently broke the news to Prince Bismarck, who arose immediately and remained silent for some time at the death bed. At the death scene there were present Drs. Schweninger, Chrysander, Countess Rantzau and Prince Bismarck's niece.

Early yesterday morning the prince's head forester and his neighbors called to offer their condolences. The prince asked their indulgence, saying that he was unequal to seeing visitors. He only received Pastor Schuman from Wessow.

Prince Bismarck personally communicated the news of the death of the princess to the emperor and empress, who immediately sent a long telegram of condolence. Among the others who sent messages of sympathy and regret are the King of Wurtemberg, Chancellor von Hohenlohe and the ministers and secretaries of state.

The prince is so broken down that his doctors insist upon his speedy removal to Friedrichsruhe. The funeral ceremonies will be on a modest scale out of regard for his condition. The interment will probably be at Schonhausen, the ancestral home of the Bismarcks. It is expected that the body will be removed on Saturday. Prince Bismarck once expressed a wish to be buried under the oaks of his beloved Sachsenwald. It was concluded from this that he intended to build a mausoleum there, but the family vault is at Schonhausen.

WAR IN ALABAMA.

Serious Trouble Likely to Occur in Montgomery Inauguration Day.

BIRMINGHAM, Ala., Nov. 28.—It has just been learned that certain hot-headed Kolbite leaders in several north Alabama counties have issued secret calls for armed men in companies of some 100 to 500, to volunteer to go to Montgomery on inauguration day next Saturday to help to seat Kolb as governor. The call urges the Kolb followers to "maintain their rights and carry out the will of the people," and it is said that companies are being organized.

In Selma, so great is the apprehension felt that armed guards have been placed over the local military armories to prevent a possible raid upon the arms and ammunition by Kolbites, who may desire to arm themselves for their Montgomery trip. All the troops in the state have arranged to go to Montgomery and it is understood they will carry their guns loaded.

Governor Jones says that while he anticipates no trouble, the authorities are well prepared to stamp out thoroughly any disorder that may occur. Kolb will not be arrested unless he commits some overt act or collides with the constituted authorities.

Senator Morgan Re-Elected.

MONTGOMERY, Ala., Nov. 28.—A ballot was taken in both houses of the general assembly yesterday for United States senator to succeed John T. Morgan, Democrat. Morgan received 28 votes in the senate and 61 in the house. Warren Reese (Populist) of Montgomery received 9 votes in the senate and 34 in the house. A joint convention will be held to announce the result and declare Morgan elected. Reese will contest the seat and it is said that the ballot for him yesterday is the first step in the organization of the Kolb government.

DEPRIVED OF HONORS

Li Hung Chang Disgraced by the Emperor of China.

HE STILL HEADS THE ARMY.

His Recent Failures the Cause of the Emperor's Wrath—Further Accounts of the Battle—The Peacemaker Reaches Yokohama—The Mikado Orders His Troops Onward—Our Baltimore Is There.

LONDON, Nov. 28.—The Westminster Gazette publishes a dispatch from Shanghai saying that Viceroy Li Hung Chang has been deprived by the emperor of all his honors. He is permitted, however, to retain his public functions.

Some four months ago the emperor deprived the viceroy of his three-eyed peacock feather because of Li Hung Chang's mistakes in the war. Right after the great naval battle in which China lost several of her largest fighting ships, the emperor further disgraced him by taking away his yellow jacket. This last humiliation completes his deprivations.

Instructions From the Mikado.

YOKOHAMA, Nov. 28.—The mikado has sent the following message to the second Japanese army at Port Arthur: "The gateway of the Gulf of Pe-Chi-Li was regarded by the enemy as a barrier to their country, but, you, by one effort, have captured it. As the cold is increasing and the end is still distant, keep yourselves in good health and continue your exertions."

No Quarter Given in the Fight.

CHE-FOO, Nov. 28.—It is stated here that the bodies of the Japanese prisoners were found mutilated at Port Arthur. Four hundred Japanese were killed by the fire from the forts. None were killed by the infantry. No quarter was given. The plans of the mines in and around Port Arthur were discovered by the Japanese.

QUARRELED ABOUT A RING.

One Man Is Dead and the Other Is Locked Up Charged With Murder.

KANSAS CITY, Nov. 28.—Frank Howland yesterday struck his sister's lover, John Sellman, because the latter would not return a ring she had given him. Howland is now in jail charged with murder, Sellman having died during the night from the effect of the blow. The dead boy is but 17 years old and the murderer 20.

Howland's sister, Gerrie, had given Sellman a small ring in token of her regard for him, but when Sellman's love cooled, she asked for its return. Sellman refused to give it up and Miss Howland made her brother her messenger to obtain it. Sellman still refused to surrender the ring when Howland demanded it of him, and in the altercation that followed, Howland struck his opponent a blow on the jaw. Sellman died in convulsions at midnight and Howland's arrest followed.

Hotel Held Up.

BAKER CITY, Or., Nov. 28.—A daring robbery was committed here at 2 o'clock yesterday morning. Six heavily armed men with rifles, shotguns and revolvers, and wearing masks entered the Hotel Warshaus. The employees and bystanders were placed under cover and arms while two of the robbers relieved the saloon bar till and fare game of cash amounting to \$1,100, which they placed in a sack and departed. The fire alarm was turned in by the officers a few moments after the robbery, which drew out a large number of people, but the robbers were not to be seen, having made good their escape. There is no clew whatever.

Explosion of Mercury.

WATERBURY, Conn., Nov. 28.—This city was shaken from end to end by the explosion of 120 pounds of fulminate of mercury in a powderhouse of the Waterbury Brass company yesterday. John Kelly, aged 46, a powdermaker, who was in the building, was blown to pieces. Most of the glass in the factories of the brass company and nearly every pane of glass in the New York and New England railroad station was destroyed.

Blown Up at the Supper Table.

OROVILLE, Cal., Nov. 28.—News has reached here of a tragic affair at Quincy, in Plumas county. Nathan McDonald invited six companions out to Rockwell Park for supper. When all were enjoying the evening together some one placed giant powder beneath the building and wrecked it, killing James Botserson and wounding all the others.

CHRISTIAN UNION.

The Movement Continues to Spread in Many Directions—Presbyteries Voting on It.

The Christian Union movement continues to spread in many directions. The plan of federation which is now being voted on by certain Presbyteries contemplates the union of at least seven denominations under a federal council, or ecclesiastical assembly, consisting of four ministers and four elders from each of the denominations.

This council is not to interfere with the creed, worship or government of the denominations, but is to advise and recommend in all matters for the general welfare of the church, to promote co-operation, to keep watch on moral and religious movements, to correspond with the assemblies of the denominations, and to have final adjudication of differences between the federated bodies.

The object of all is to be "for the greater glory of God and the greater unity and advancement of the church."

The churches interested are the Northern Presbyterian, the Reformed Presbyterian, the Associate Reformed Synod of the South, the Cumberland Presbyterian, the Reformed Church, the United Presbyterian.

Railroad Commissionership.

(CARLISLE, KY., Nov. 24, 1894.

To the Democrats of the Third District—Dear Sirs: I have been asked several times since the late election if I was still a candidate for the Democratic nomination for Railroad Commissioner.

I desire to say that I am still a candidate for the nomination. I am a Democrat, and believe in maintaining the organization of my party, and no landslide or temporary defeat affects my democracy. I was a candidate when things were bright, and am still a candidate when things do not look so rosy.

I would be pleased to have your support in the county and district conventions, and am willing to do my part in making a contest next year, and next year, and next year, until we regain all the ground we have lost. Yours, &c., G. R. KELLER.

What Shall I Take ?

is the anxious question asked by those who are not feeling well—have no appetite—are out of sorts—have no energy—feel tired out. Perhaps you are feeling sick yourself!

Many medicines are recommended, doctors consulted—(in many cases) much money spent in this search for health—and yet it can all be avoided.

Wise people commence at once taking **Brown's Iron Bitters** and are soon made well and strong. Nearly every prescription given by physicians for such troubles contains IRON—which some people say they cannot take. Try **Brown's Iron Bitters**—it is warranted not to give headache, stain the teeth or cause constipation as all other Iron Medicines do.
